Features

Rating & Reviews

Drivers, Manuals & Support

The fast path to success

Bypass passwords: Start the workday faster by signing on with an optional fingerprint reader integrated into the power button or with the optional IR camera + Windows Hello for seamless authentication.

Power through the day: Keep the work flowing with a high-density battery and ExpressCharge, which allows an 80% charge in one hour*. With Dell Power Manager, you can choose from four modes to balance between optimal battery or power performance.

Smarter screens: Charge your system less often with our Super Low Power Panel. It extends your PC's run time on all non-touch Full HD configurations without compromising screen resolution, color or brightness.

Connect anywhere: Seamlessly work on the go thanks to optional mobile broadband supporting speeds up to 450Mbps*.

Stay synced: Thanks to Modern Standby, you can get back to your work instantly when turning on your system due to the Wi-Fi staying strongly connected.

A productive powerhouse

Room for every project: There's nothing holding you back from your best work with scalable memory and storage, including up to 32GB DDR4 memory and up to 1TB of storage.

Make connections: Quickly connect to peripherals with a full range of available ports, including USB Type-C™, optional Thunderbolt™ 3*, and legacy ports like HDMI and RJ45.

Fast performance: The latest 8th Generation Intel® up to i7 4-Core™ vPro™ Processors increase productivity, manageability, and security for your business.

Review Summary

Features

Rating & Reviews

Drivers, Manuals & Support

Beauty in every detail

Travel light: The Latitude 5300 is more mobile and portable than ever, with an improved design that's thin and modern. The bottom mount keyboard contributes to its clean look and feel.

Ultimate views: The display is packed with features designed to keep you focused on your work, like the four-sided narrow bezel, antiglare screen and 300 nit/sRGB resolution on the Full HD option.

Built with sustainability in mind: Our 5000 series Latitudes were the first to use post-industrial carbon fiber in the design and include up to 18% post-consumer recycled material, which prevented over 2 million pounds of carbon fiber from ending up in landfills.

Manage and secure with ease

Ultimate convenience: Manage all of your Windows 10 endpoints from one console with Dell Client Command Suite and VMware® Workspace ONE™ integration.

Seamless sign on: SafeID protects end user credentials with an optional fingerprint reader on the power button and the FIPS 201 Smart Card Reader—delivering the fast, multi-factor authentication you've come to expect from Dell's most secure PC portfolio*.

Remotely manage: Dell unique vPro™ extensions can remotely manage and run diagnostics on a fleet of devices, whether they are powered on or off.

We've got your business covered

ProDeploy Client Suite: We help you deploy PCs with greater speed, less effort and more control. You will direct every detail of your deployment with our TechDirect portal that features an unprecedented level of control, automation and simplicity.

ProSupport: Let us make hardware and software support easy. ProSupport offers 24x7 access to local language, advanced technology experts who contact you when critical issues arise*. We do all this so you can focus on the strategic work that drives your business forward.

ProSupport Plus: With our most complete support service for PCs, you get all the capabilities of ProSupport plus hard drive failure prevention*, repair for drops, spills and surges and hard drive retention in the case of replacement*. In today's fast moving culture, there's no time for downtime. Dell has your back. Upgrade to ProSupport Plus.
